PSI Update Regarding COVID-2019

We continue to monitor the situation with Novel Coronavirus (COVID-2019), and we will provide weekly updates via email as warranted on this health emergency until it passes.

To date, PSI and/or our global partners have closed multiple test centers in areas affected by the spread of this disease. A current list of test center closures can now be found on the following website: <https://www.psionline.com/important-notice-update-concerning-covid-19-coronavirus/>. This information is updated on a daily basis.

Should the outbreaks continue to expand, further closures will be put into effect and communicated weekly via email or can be viewed daily via our site <https://www.psionline.com/important-notice-update-concerning-covid-19-coronavirus/>.

The World Health Organization has issued the following advice to better protect oneself:

- Cover the mouth and nose when sneezing or blowing the nose
- Avoid contact with sick people, work from home, or take time off if feeling sick and have a fever
- Wash hands frequently throughout the day
- Cook food thoroughly prior to consumption

Additional information can be found at the World Health Organization (WHO) website (<https://www.who.int/emergencies/diseases/novel-coronavirus-2019>), US Centers for Disease Control (CDC) website (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>), and the UK NHS website (<https://www.nhs.uk/conditions/coronavirus-covid-19/>).

At PSI Services LLC, our top priority is the health and safety of all of our staff, customers, and the communities in which we operate. PSI leadership continues to carefully monitor the outbreak.

Please feel free to contact me at brockers@psionline.com or 913.895.4798 if you have any questions.
