You're invited to attend The Chicago Association of Healthcare Central Service Personnel: Recipes for Good Sterile Processing

This is a free event and will award 2 CEs from HSPA or CBSPD.

Join us for engaging presentations, discussion, & Fun Networking Sessions

- Agenda -

Opening comments, introductions, and Remo platform overview

Excellent guest speaker: Mr. Adam Okada - Healthmark industries

- Session One -

Everything you Need to Know about Immediate Use Steam Sterilization

Objectives:

- Explain what Immediate Use Steam Sterilization is, and how it is different from “flashing”
- Describe the scenarios when I.U.S.S. is appropriate and when it should be avoided
- Explain what our standards and guidelines state about how to safely perform I.U.S.S.

- Networking Break: *Cooking Up Something Fun!* -

- Session Two -

From Loading to Unloading – An Overview of Steam Sterilization Practices

Objectives:

- Review basic sterilization theory and name the different parts that make up a steam sterilizer
- Review steam sterilization testing, function, documentation, and record keeping
- Explain proper loading and unloading of the steam sterilizer and the various causes of wet packs
